Course 1.125 - Problem Set 2

We are going to replicate some of the charts that Professor Hans Rosling made famous.

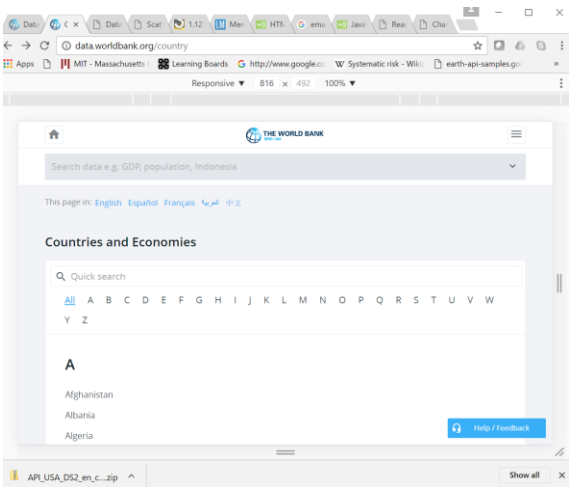
https://www.ted.com/talks/hans_rosling_shows_the_best_stats_you_ve_ever_seen?language=en

We are going to download data from the World Bank.

http://databank.worldbank.org/data/FAQ/Video/databank-tutorial-overview.html

Each person needs to get the data from two countries. Sign up for your countries here – no overlaps

https://docs.google.com/document/d/1Tt99wN0GeChbU5GHMcFCpKzxljWXLKkK39Zwh3Z9QX8/edit?usp=sharing



You need to make charts of two of the following, one of which should be animated:

1) Fertility Rate vs Life Expectance
2) GDP vs Child Survival
3) Income per Person vs Life Expectancy
4) Choose your own
